

PROTECT YOURSELF FROM **LOTTERY SCAMS**

Various scam artists have been attempting to impersonate Lottery, Powerball® and Mega Millions® staff to steal people's identities, credit card numbers, banking information and cash.

ALWAYS REMEMBER:

- The Lottery would **NEVER** charge you to get your prize.
- A Lottery official would **NEVER** personally contact you about winning a jackpot.
- A Lottery official would **NEVER** ask you for money up front.
- There's **NO WAY** to win a Lottery prize if you didn't play a Lottery game.

HELPFUL TIPS:

- Ignore all emails, letters or phone calls from unknown individuals or entities soliciting money from you. Also ignore requests for personal or financial information.
- To report a suspicious email, letter, phone call or website, contact the Nebraska Lottery at **800-587-5200**. For more information about various types of consumer fraud, call the Attorney General's Consumer Protection Division at **800-727-6432**.
- Information about claiming a Nebraska Lottery prize is available by calling **800-587-5200**.
